## Mission Statement

### Customer Driven

We strive to understand the diverse and emerging needs of our customer base. Our customers value our flexibility in developing solutions that meet their specific needs. We provide reliable and dependable solutions that exceed our customers' expectations.

### People Driven

We know that our most significant resource is our people, and we are dedicated to providing an environment that allows each employee the opportunity to perform to his or her greatest potential. We truly believe the success of our organization can be attributed to our employees' dedication, pride, and outstanding work ethic. The commitment and loyalty of our employees facilitates the success of our organization.

### Quality Driven

We recognize that quality is important to our customers. We develop repeatable operations, safety, security, claims prevention and vehicle maintenance processes that minimize variance and improve consistency. We measure our performance so that we can continuously improve the reliability and efficiency of all aspects of our service. We are committed to providing our customers with high-value, cost-efficient solutions. Our commitment to quality is integral to our company.

# LETTER FROM THE PRESIDENT

In 1979, when my father encouraged my brothers and me to open a trucking company, he instilled in me the importance of listening to our customers' needs. By staying true to this core value for over 40 years, we have gained great insight into what the marketplace needs. We are the logistics provider that is skilled to consultatively understand what the problem is you are facing and work with you to determine the best solution.

We understand the impact our trucks have on the environment, the economy, and our communities, and we are committed to sustainability today, tomorrow and well into the future. What may have started out as good business practices has transformed into a successful sustainability platform focused on the 3 P's, "People, Planet & Purpose."

It's no coincidence that People is our first pillar. We take care of our people, who in turn take exceptional care of our customers. I am proud that this, and our other core attributes established in 1979, still hold true today.

In addition to a focus on our people, we've made significant strides in our responsibility of the planet. PITT OHIO is taking solar energy to the next level in Pittsburgh by enhancing the use of solar and wind with the installation of a renewable DC Microgrid, including 1 wind turbine and 180 solar panels on the roof of our terminal. I'm expanding this research project at our Cleveland, Ohio terminal, which will include 8 wind turbines and 708 solar panels.

The more we learn about carbon emissions, the more it energizes us to do our part to reduce it. We assess our fleet regularly and replace it with new, more carbon-efficient equipment, including the addition of 24 CNG (Compressed Natural Gas) tractors.

Technology continues to be a company focus as we allow our business to drive our technology advancements. Simply put, we use innovation and our technology to make shipping effortless for our customers throughout the shipment cycle. We're leveraging the use of our on-board computing systems to deliver superior on-time performance and remain environmentally conscious. As a result, we're providing Estimated Times of Arrival (ETA) and integrating directly with our customers making it possible for you to have heightened supply chain visibility.

Bring us your challenges. It's likely we have the solution or we will use our creativity and years of experience to shape a solution that solves your logistics challenge. Leverage our resources, know-how and vision to solve the transportation problems you are facing. We promise to still excel at the basics, which built this company nearly 40 years ago. Rely on us to be your one stop shop and your go-to supply chain problem solver.

We strive to be the best in the industry by listening to our customers and understanding their business. Thank you for trusting PITT OHIO to do just that.

*Sincerely,*

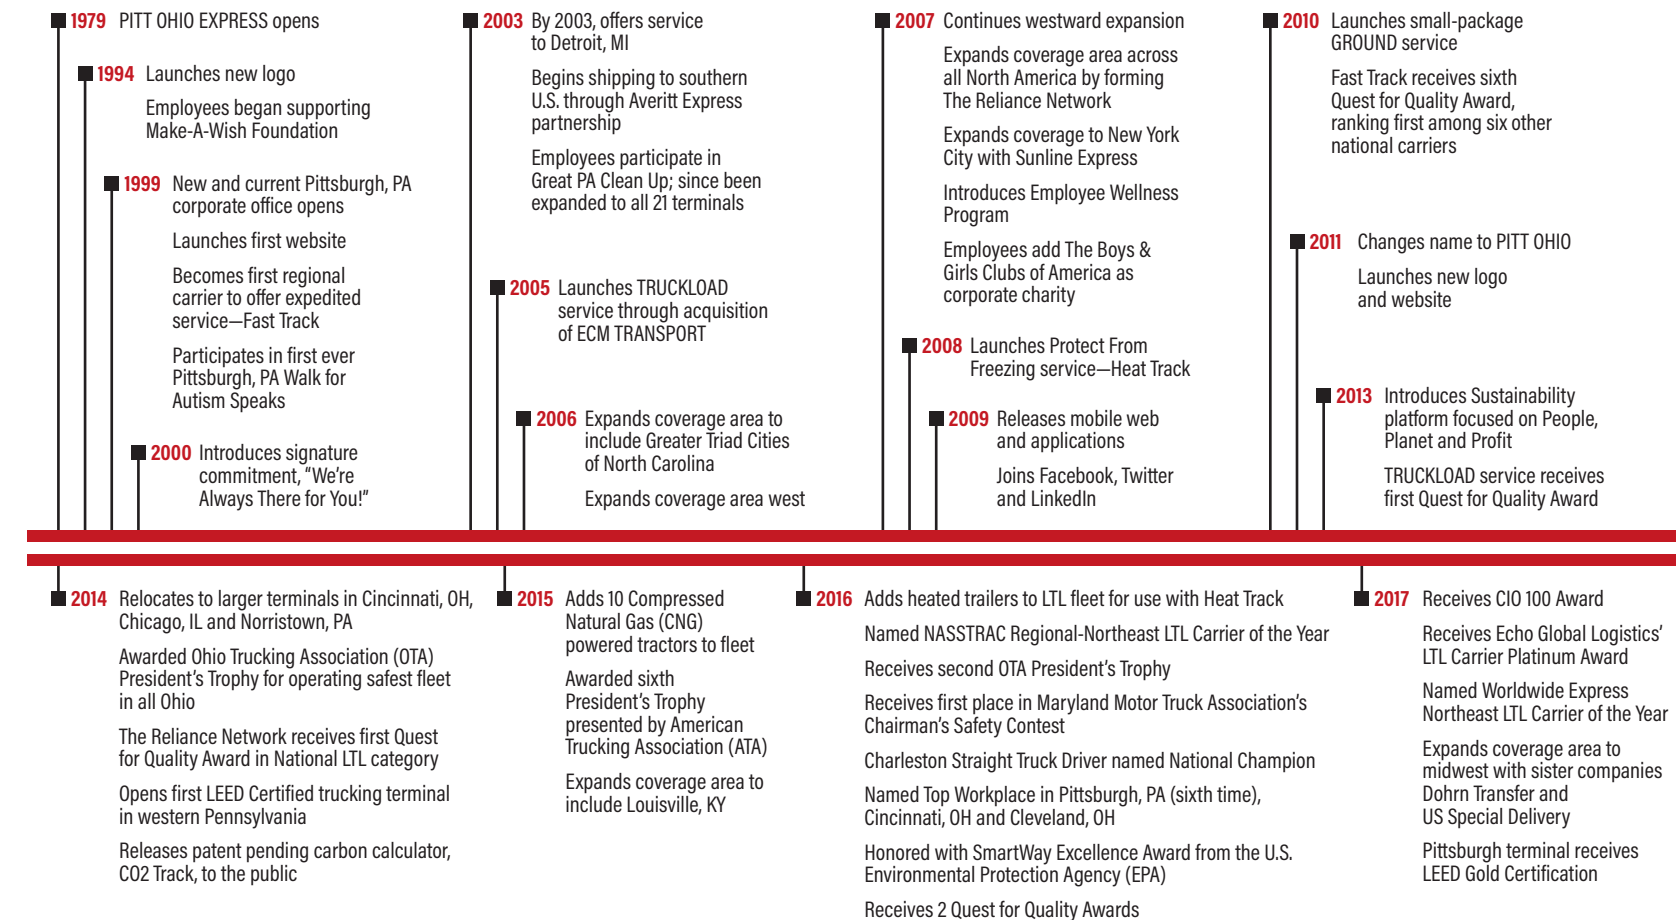

**Charles Hammel, III**

# HISTORY OF PITT OHIO

## The Start Of A Family Tradition

At PITT OHIO, our core values and business practices have been passed down from generation to generation. Charles Senior was the first in the Hammel family to start in the transportation industry opening Hammel's Express in 1919 with a horse, a buggy and one customer. In the 1940's his son, Charles Hammel, Jr., continued in the family business, which became the foundation from which Charles (Chuck) Hammel, III began to learn and love the transportation industry.

With deregulation of the transportation industry, Charles Junior's vision to provide next-day service to his customers between states was realized when he provided the guidance and funding for his sons to start their own business. In 1979, Chuck Hammel, III and his two brothers began moving freight between Pittsburgh, Pennsylvania and Ohio, thus naming their business PITT OHIO EXPRESS.

# NORTH AMERICAN SERVICE

## Benefits

PITT OHIO pulls together their resources to develop forward-thinking and benefits-driven solutions across North America. By working together, they customized a program that allowed our shipments to be consolidated before delivery—as they enter the supply chain. This alone resulted in a 25% overall cost savings, and vastly improved efficiency. It's a solution that offered us both consistent performance and the flexibility we required.

— Al Garcia, Transportation Manager  
Toshiba

PITT OHIO will manage all of your door-to-door shipping needs and serve as your single source of accountability throughout North America.

Experience more consistent transit times with our reliable transportation resources and efficient equipment.

Seamless coverage through hundreds of service centers across the continent and exceptional customer service from team members with the needed expertise.

Never question where your freight is with our complete, real-time shipment visibility from origin to final destination.

## Efficient, Consistent Performance

At PITT OHIO, our Less-Than-Truckload (LTL) service extends across all of North America. Together with a strong group of regional carriers each known for exceptional customer service and dependable on-time delivery records, PITT OHIO can provide cross-continental coverage for all of your North American LTL freight.

Seamless, 100% coverage across all of North America

## NORTH AMERICA EXPRESS LANES

### Shorter Transit Times. Same Exceptional Service.

In conjunction with our North American carriers, PITT OHIO has enhanced service and shortened transit times in specific lanes across North America. North American Express Lanes offered to the West Coast, Texas, Minneapolis and Saint Paul, Minnesota, and Kansas City, Missouri.

# FAST TRACK

## National And International Expedited Service

PITT OHIO's enhanced and simplified Fast Track service is your global expedited solution with the ability to deliver all of your urgent shipments inside and outside of our core service area. Simply tell us when and where you need your shipment delivered and we will customize a Fast Track solution for you.

### EXPEDITE

We guarantee the delivery of your most critical shipments any time or day and we can even make a same-day-delivery! Expedite service is available for shipments in or out of our core service area.

### TIME DEFINITE

We guarantee that your delivery will occur by a specific time. Time Definite service is available for shipments delivering in either our core or extended service areas.

### DAY DEFINITE

We guarantee your delivery by 5pm on our standard published transit day, both inside and outside of our core service area.

## TO SCHEDULE YOUR FAST TRACK SHIPMENT

[GOFASTTRACK@PITTOHIO.COM](mailto:GOFASTTRACK@PITTOHIO.COM) | 866-763-0055

**Money Back Guarantee:** We stand behind our Fast Track Services and offer a money back guarantee of up to \$500 on all expedited surface transportation. To safeguard your delivery we encourage you to call by 3pm and have your freight ready for pick up by 5pm.

## Benefits

When an important shipment needs to be there, you can depend on PITT OHIO's award-winning, reliable, 99.8% on-time expedited service to deliver your urgent shipments.

With just one call, we can provide an expedited solution that is the best fit for what you need.

Have peace of mind across North America with our Day Definite service.

We know the visibility of your urgent shipments is crucial, so we've made it quick and simple to monitor your expedited freight online with our real-time tracking and tracing.

Rest assured when expediting your freight with our exceptional value and money back guarantee.

All of our customers rely on prompt freight service. They schedule their employees around their weekly shipments and expect timely delivery. PITT OHIO's Fast Track guarantee helps us to provide excellent customer service by delivering the freight when they need it.

— Diana Slayton, Freight Coordinator  
Wheeler Brothers

# HEAT TRACK

## Benefits

We guarantee your freight will be protected from the cold with heated trailers, blankets, portable heaters and warm storage spaces inside our terminal buildings.

Your shipments will receive priority in our system because of our extensive technology capabilities. We will identify these shippers who have freezable shipments right at the point of pick up and monitor these shipments all the way through to delivery.

We monitor and compare weather conditions through a variety of online sources and technologies to manage forecast predictions and determine special handling procedures for your freezable shipments protected by our Heat Track service.

Our reliability is backed by our industry leading claims prevention ratio of .0002%.

**97%** ON-TIME SERVICE

**.00002%** CLAIMS RATIO

## Protecting Freezable Shipments

At PITT OHIO we take pride in the care we give to our customers and their freight and cold weather days are no exception. PITT OHIO's Heat Track service is designed to protect products capable of freezing between October 1<sup>st</sup> and April 30<sup>th</sup>.

PITT OHIO will develop a cost-effective solution to protect your freezable shipments from the moment of pick up to final destination.

### CORE AREA

Using our fleet of over 1,500 heated trailers to protect freight in the Mid-Atlantic and Midwest with a 32°F freeze point.

### NEW ENGLAND

Available for New England shipments with freight requiring temperature control.

### CANADA

Polaris Transportation Group and Rosenau Transport operate a fleet of heated trailers that keep shipments warmer than 45°F.

TO LEARN HOW OUR HEAT TRACK PROGRAM CAN BENEFIT YOU EMAIL [HEATTRACK@PITTOHIO.COM](mailto:HEATTRACK@PITTOHIO.COM)

**1,500+**

MOST HEATED TRAILERS IN THE MID-ATLANTIC AND MIDWEST REGIONS

*Heat Track charges are in addition to normal freight charges. A Heat Track surcharge will be applied on all shipments that are marked "Heat Track or Protect From Freezing (PFF)" during PITT OHIO's Protect From Freezing season, which runs October 1<sup>st</sup> through April 30<sup>th</sup>. For guarantees and exemptions, please visit our website.*

# SUSTAINABILITY

## A Sustainable Future

Following consideration of the importance of environmental sustainability and a commitment to be a benefit to the Mid-Atlantic and Midwest regions, PITT OHIO is committed to doing our best to achieve environmental and social responsibility.

We understand the nature of our business and the impact we have on the environment, therefore our commitment to the three P's (People, Planet, Purpose) serve as an integral part of our sustainability policy. We believe in being good corporate citizens and giving back by aligning ourselves with various organizations who share our same approach of being committed to improving sustainability for future generations.

PITT OHIO is committed to promoting sustainability. We pledge to improve the environmental and social sustainability performance of our business. Our sustainability goals support the 3 P's concentrating on People, Planet and Purpose.

CNG TRACTOR  
(30 total)

Over the past 5 years,  
shipments have grown 30%,  
while our carbon emissions  
have only grown 25%.

We've reduced our carbon  
output on a per tonnage basis  
3.4% over the past 3 years.

## Pittsburgh Terminal

In addition to being LEED Gold, this terminal boasts 180 solar panels and 2 wind turbines among its many eco-friendly features on both the interior and exterior of the facility. Also on campus is the LEED Gold Certified Mechanic Shop.

LEED CERTIFIED  
MECHANIC SHOP

## Cincinnati Terminal

The Mechanic Shop at this terminal is LEED Certified and projected to have energy cost savings of 20.75%.

# INNOVATION & TECHNOLOGY

## Shipping Needs At Your Fingertips

PITT OHIO has developed e-business tools that create value for your company. With the ability to conduct business electronically, your customers will have better visibility into their supply chain. PITT OHIO has the flexibility and agility to turn innovation and new technology advancements into a competitive differentiator for our customers. Our objective is to continue to be innovative and use our technology to make shipping effortless for our customers.

### Website

PITT OHIO has developed an award-winning website that provides our customers with the necessary tools to conduct business more efficiently and cost-effectively.

## SEAMLESSLY INTEGRATE OUR TOOLS WITH YOUR SYSTEM

RATE QUOTES | FREIGHT CHARGES | PICK UPS | TRACKING & TRACING INFORMATION

**Electronic Data Interchange (EDI)**  
Computer-to-computer exchange of data

**Business-To-Business API**  
Automated computer-to-computer interface to PITT OHIO

### Electronic Invoicing

This is a simple way for customers to access and receive paperless invoices.

## Mobile Tools

PITT OHIO has a mobile application and a mobile website which allows our customers to stay connected anytime, anywhere. Mobile customers can now download our application on their Apple iPhone® or Apple iPod Touch® application as well as access our mobile website at [m.pittohio.com](http://m.pittohio.com). PITT OHIO enhanced its communication and visibility to its customers, employees and overall general public by joining the social media network and launching a Facebook, Twitter, LinkedIn and YouTube page.

# SAFETY & SECURITY

## Safety

At PITT OHIO, ensuring the safety of our customers, employees and our communities is our priority. PITT OHIO has been consistently recognized as having one of the highest rated safety departments in the industry.

Through our proactive mindset, we have established and continually maintain excellent motor carrier safety ratings and low accident frequencies.

As a company, PITT OHIO has a solid safety performance history and will continue to be a leader in the area of safety and compliance due to the dedication and professionalism of our fleet of drivers and vehicle maintenance personnel.

### Safety Knowledge

### Experienced Staff

### Continuous Training

### CSA Compliant

### Award-Winning

### Forward Thinking

**At borchers/OMG Americas, safety is our number one priority. Shipping hazardous materials is serious business. Not partnering with the right carrier can be detrimental to all stake holders, the environment and public safety. We ship with PITT OHIO because of their industry-leading motor carrier safety record and on-time performance. Some shippers may take a carrier's safety practices and recognition for granted, but we do not. For us, it's about being trained, proven and consistent, day in and day out. We have come to rely on that from PITT OHIO and their drivers. In addition, PITT OHIO's Safety and Operations team is proactive and second to none. We call on them often for input and together we define best practices and continual improvement opportunities. Thanks PITT OHIO.**

— Pat Foster, *Manager, Logistics*  
borchers/OMG Americas

## Security

At PITT OHIO, we offer industry-leading asset protection and security compliance programs.

We understand that our customers may have important and unique needs related to homeland security regulatory compliance, high-risk products, or brand protection. We offer consultation and proactive partnership to ensure that our customers' security needs are met.

Up-to-date business continuity and resiliency program's, and relationships with key government and private sector organizations help keep PITT OHIO well-prepared against the risks of potential disruptions or crises.

By leveraging modern and proven technologies, we maintain the integrity of customer assets while in-transit or at one of our facilities. Every hour of every day the PITT OHIO security team members are providing centralized monitoring and management of our enterprise asset protection programs.
